

Have you seen this gecko?

Length including tail: 8-15cm

Small spines on tail

Bulging eyes, no eyelids

The introduced Asian house gecko is common in Carnarvorn.

We're watching out for it so we can prevent its spread to islands in Shark Bay.

If you see or hear this gecko, please contact the Parks and Wildlife Service on 9948 2226.

Fawn to grey body, some mottling

Hemidactylus frenatus

Distinctive call: "chuck chuck chuck".
Hear it on www.sharkbay.org
